Thanks Ben. I am still working on Lyndsey to get those numbers. I know she had some of the main ones but not all. I sent reminder again.

**Subject:** New York Radiation Sites - Validated Radon Analytical Results

Hi Eric,

I have just dropped off the validated data packages for the radon sampling events conducted at the Niagara Falls Boulevard, Holy Trinity Cemetery, and Canadian Radium & Uranium Sites.

You will find the data packages in a box placed on you chair inside your office cube.

Please let me know when we can receive the EPA site-specific action levels for the soil radiological parameters analyzed for during the removal assessments of the New York radiological sites.

Please let me know if you have any questions.

Thanks,

**Ben Nwosu**
